Surabaya, East Java, Indonesia

As a student majoring in Information Systems at Institut Teknologi Telkom Surabaya, I possess skills in utilizing the Laravel framework and SQL database. I have successfully applied these skills through the development of a MultiUser Task Management Application as a part of a project.

Beyond my academic activities, I also serve as the Secretary of the Website Development Division in the UKM Coder IT Telkom Surabaya. This role allows me to actively contribute to the field of web development and collaborate with a team. I am eager to leverage my skills and experiences to make effective contributions to future projects
